afar due to the unique rear-mounted four-cylinder air-cooled Boxer engines. Full Production in Mexico began in 1967 with the last Type 1 rolling out from Puebla in 2003. Millions were produced and exported worldwide with owner modifications such as roof racks, tow hitches, and singular surface treatments. The Vochos featured here are all from the Free and Sovereign States of Yucatán and Quintana Roo.

Volkswagen Beetles or Vochos are the beloved workhorses of Mexico, enabling citizens to travel and transport for generations. Appearing on the roads like automotive M&M candies, their distinctive two-door colored shells stand out among other vehicles. This led to their use as taxis in Mexico City until 2012. As taxis, the front passenger seat was removed, trapping fares in the back. Like insects, the car's sound would announce their approach from
